Highly motivated student pursuing a Bachelor's in Computer Science with a focus on **Cybersecurity**. Skilled in programming, CAD software, and basic hardware repair. Experienced in **teaching**, **hands-on tech projects**, and **collaborative work**. Fluent in **English** and **Spanish**, with intermediate knowledge of **Japanese** and basic understanding of **American Sign Language (ASL)**.

Skills

- **Programming:** Lua, Python, HTML, basic Bash
- **Customer Support Experience:** Assisting others with software, guiding projects, & troubleshooting
- **Hardware:** Controller repair, soldering, troubleshooting
- **Communication & Soft Skills:** Teamwork, mentoring, problem-solving, effective communication
- **Languages:** English (fluent), Spanish (fluent), Japanese (intermediate), ASL (basic)
- **Networking & IT:** Beginner-level CompTIA A+ knowledge

Professional Experience

Manufacturing Department Manager at VESL (SteiglerEDU) (2023 - 2023)

- Supervised student teams in the design and assembly of derby cars using CAD software
- Instructed students in CAD tools and engineering principles
- Coordinated team workflow to meet project deadlines

Contractor Assistant at DB Top Construction Family Business (2020 - 2024)

- Assisted in residential construction projects, performing assembly, setup, and general labor
- Gained practical experience with tools, project execution, and on-site teamwork

Entrepreneur – Electronics Repair & Resale (2025 - Present)

- Repaired gaming controllers through soldering and hardware troubleshooting
- Managed client communication, sales, and logistics via Facebook Marketplace and OfferUp

Projects

Input Recorder & Macro Replayer

- Built a desktop tool that records mouse and keyboard inputs and replays them on demand
- Implemented multithreading, hotkey controls, and a customtkinter GUI

Web Scraper – Python/Scrapy

- Developed a Scrapy-based web scraper to extract and structure data from live websites
- Learned crawling pipelines, item parsing, and data export workflows

Task Manager App

- Created a terminal-first task manager with add, complete, and delete functionality
- Designed with clean architecture in mind, built toward a GUI layer

Game Development

- Developed a full-featured educational Roblox game, handling UI/UX design, 3D modeling, gameplay mechanics, and scripting in Lua to create an interactive and engaging learning experience.

Education

Central Piedmont Community College, Charlotte, NC

College Transfer Pathway – | 21.00 Completed Credits | GPA: 3.667

University of North Carolina at Charlotte, Charlotte, NC

(Fall 2028)

Bachelor of Science in Computer Science – Systems and Networks (**intended Cybersecurity concentration**)

| Minor: Undecided |
